

### Numbers continue to decline

Numbers were down again this week, despite a two-week break, with less than 3000 head on offer and the market quoted as cheaper. Numerous vendors took the opportunity to watch their stock sold today within the reduced COVID restrictions. Everyone who attends the sale are still required to sign in and abide by other hygiene and social distancing guidelines as prescribed by TRLX. The top lambs made \$260 for lambs sold by DC on account Bowler.
