

Grass is green and the market red hot

If the car park is anything to go by today's sale was bound to be red hot with recent follow up rain across the region and up and down the state bringing out the buyers. Earlier this year the Niangala district was battling fires but today 'Carnegie:' topped the steers at \$1500 and the heifers at \$1320 with their top-quality Angus x Santa/Angus weaners. Cows and calves topped at \$3225 with local buyer Bill Wilson snapping up a "3 for 1" deal on behalf of son Cameron, Retaru Partnership, paying top dollar for young Angus cows with July/Aug drop calves at foot and re-joined. See more photos and Chris Paterson's market wrap video on our Facebook page.
