

Prime numbers remain low, store numbers build

Numbers continue to remain low today with some particularly good vealers returning from \$1000-\$1300 for the steers and \$800 - \$1265 for the heifers. The MLA quoted a “strong market for young cattle on the back of high re-stocker demand” while the cow market saw similar prices to 2 weeks ago with most of the best cows making around 270c/kg. Grown heifer and steer numbers were limited. Although prime cattle yardings are down, numbers continue to build for our store sale this Friday 15th May with upwards of 2000 cattle expected. COVID 19 restrictions still apply but you can still buy/bid, sell and watch the sale online. Contact your preferred agent for further details
